Optimization of Multicolor Photothermal Power Plants in the Solar System: A Finite - Time Thermodynamic Approach

V. Bădescu and C. Dinu

J. Phys. III France **6** (1996) 143-163

Some misprints appeared in this paper.
In Section 3.1, equation (24) should read

$$\dot{Q}_2(\bar{u}) = \varepsilon_r A_r \sigma [t_2^4 - T_a^4]$$

and equation (27)

$$\gamma(\bar{u}) = \frac{\dot{Q}_1}{\varepsilon_r \sigma t_1(\bar{u})} \frac{A_c}{A_r}$$
